SHELDON CYCLE SHELTER - SCS315

Project Name:
Portsmouth UTC
Portsmouth

Contractor:
BAM Construction

Architect:
Stride Treglown

SUPPLY +
INSTALL

Portsmouth UTC is a new college that provides a specialist STEM (Science, Technology, Engineering & Maths) curriculum to meet the growing demands of employers across the region. Langley Design worked with both Stride Treglown and BAM to develop the Cycle Shelters for the new site, delivering these in addition to a Bin Store and External Benching.
