CONTINUOUS BENCHING - SBN331

SLC302

COURTYARD PLANTERS - SPL317

Project Name:
Robert Blake and Elmwood Schools
Bridgewater, Somerset

Contractor:
BAM Construction

SUPPLY +
INSTALL

Robert Blake and Elmwood Schools were sample schools from Somerset BSF and as such were designed to a high standard by Fira Landscape Architects. The contractor required a quality outcome but needed to reduce the overall cost. We looked at the design with the architect and provided a supply and install service, which resulted in a successful outcome within the time frames required.
