

## BRISTOL AIRPORT - SILVER CAR PARK

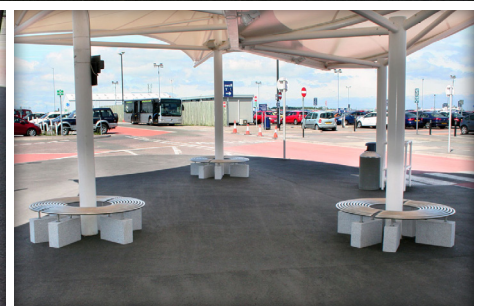

SILVER CAR PARK CUSTOMER WAITING AREA

CUSTOMER BENCHING - MBN212 NS

MBN212 NS

**Project Name:**  
Bristol Airport,  
Silver Car Park

SUPPLY +  
PLACE

The rapid growth in air traffic obviously brings with it the need to improve infrastructure. The popular Silver Car Park passenger transit area needed upgrading – this was achieved with tensile canopies which then required space efficient seating. We resolved the problem by providing 316 grade stainless steel Malford circular benches around the canopy columns. Being plinth mounted there was no disturbance to the newly laid tarmac and the installation took a few hours to complete.
