STUDENT/TEACHER CYCLE PARKING - MCS206

STUDENT BENCHING - SBN300

PICNIC TABLE LUNCH AREA - PPT401

Project Name:
Nailsea School, Somerset

Contractor:
Carillion

SUPPLY
ONLY

A combination of timber and recycled plastic products were used on this impressive school project. The original design included a curved seating area in the entrance plaza. Sheldon SBN300 benches were suggested as a lower cost alternative solution set out to achieve a similar appearance. In the play area at the rear of the school, recycled plastic benches, seats and picnic tables were chosen for their tough, low maintenance characteristics. The cycle parking solution was achieved using individual enclosed student and teacher lockable compounds for added security.
