

LANGLEY PICNIC TABLE (LPT102) & LANGLEY BENCH (LBN107)

SHELDON SMOKING SHELTER SSS304

LANGLEY PICNIC TABLE (LPT102) & LANGLEY BENCH (LBN107)

End Clothing is a contemporary mens' clothing store and we were approached directly by them after they had seen examples of our work elsewhere. They wanted to expand their external dining and seating areas at their headquarters in Newcastle whilst also offering a covered smoking/vape area for their staff. By manufacturing 8 of our own Langley timber picnic table sets which includes 16 benches this gave the client exactly what they needed to provide ample seating in the breakout area. It allows the employees to enjoy the outdoors whilst dining, socialising and coming up with the next creative workflow idea. By using the same galvanised steel and timber from the benches we also managed to keep the timber clad smoking shelter design in keeping with the area and products around whilst also offering covered area for the employees and protects them from the elements.
