Merchant Square is an 11 acre mixed use Estate in London's West End that is currently occupied by nearly 10,000 workers and residents. Langley Design were approached by JLL as they had a requirement for seating and dining facilities. Our popular Sheldon picnic tables and benches were chosen for this project and were manufactured using Hardwood Iroko timber with galvanised metal frames. This simple yet stylish design constructed out of high-quality materials offers an ideal solution for working, dining and socialising. JLL were so pleased with the products that they got in contact 6 months later to order some more!
