

MALFORD EXTERNAL CANOPY - MCP208

MALFORD STEEL CYCLE SHELTER - MCS301

MCP208

MCS201

Langley Design worked with Kier to provide an external canopy and cycle shelter at Meldreth Primary School in Cambridge. The school required a covered outdoor teaching and activity area which is becoming a vital extension to growing schools in the UK. Our galvanised steel structure was powder coated to match the school exterior and includes post protectors for the safety of the students.
