SHELDON CYCLE SHELTER WITH TWO TIER CYCLE RACKS - SCS301 & MCR205

PEWSHAM TENSILE CANOPY - PTC402

SCS301

Concordia Academy was a new state of the art school built by offsite construction specialists McAvoy Group. Langley Design were asked to supply and install an extensive cycle parking solution for the children to park their bicycles securely. We provided two tier racks underneath the timber cycle shelter to allow for the maximum capacity possible in the area given. A shaded informal learning area was also created with Langley's tensile canopy solution which can also be used as an outdoor dining/social area for the pupils to enjoy.
