SHELDON BENCH SBN307

Abingdon School is an independent boarding school for boys in Oxfordshire. Back in 2018, we were approached by SDC builders as the school had a requirement for some benches. We supplied a number of our Sheldon timber benches with grey granite plinths and a light oak stained timber. The plinths sit directly onto a firm level engineered base which removes the need for foundations. We returned to the school 3 years later and the benches still look as good as new.
