ROOFTOP DINING AREA - SPT306

SEATING WITH ARMREST - SST300

CYCLE PARKING - SCS301

SBN305

Project Name:
Surbiton Hospital
Surrey

Contractor:
Willmott Dixon

Architect:
Illman Young Architects

This innovative scheme combined a health centre and primary school development in South London. The products used were selected for their hard wearing properties and to enhance the visual appeal of the external areas. Planters were provided on the roof terrace and the needs of young pupils and the elderly were reflected in the choice of seating and picnic tables.
